

## Fact Sheet

Granite is an extremely durable and virtually maintenance free natural material.

## Quality

DCI Countertops manufactures and sells only the highest quality natural stone granite countertops from all over the world. With over two dozen granite color patterns to choose from you are certain to find the right one for your kitchen or bathroom countertop.

DCI Countertops has been a leader in granite countertop fabrication throughout West Central Florida for years, satisfying the highest standards of all homeowners.

## Manufacturing

All countertops are manufactured to the highest standards using only premium granites from the industry's best granite quarries to match the specification provided.

## Edging

All edges match the profile selected with a plus or minus tolerance of 5%. All edges are polished to a uniform finish, equal or greater than the deck surface. All edges have bottom surface smoothed to the 200 pad and bottom corner is eased. All edge corners are eased.

## **Installation**

All countertops are securely installed with necessary supports. All countertops are leveled and manufactured to accommodate appliances as per specifications. All backsplashes are caulked to both the counter and the wall. Seams are leveled with the exception of instances where material is not equally ground from the quarry. Seams are bonded with adhesive to be no greater than 1/16" gaping.
